Dr. Florin Dorobantu is a financial economist who specializes in valuation and the quantification of damages in arbitration and litigation matters. He has provided expert testimony in both commercial and investment arbitrations, across multiple industries ranging from mining and oil & gas to financial services. He has extensive experience in the mining sector, having conducted valuations and other economic analyses involving projects at all stages of development and across a variety of minerals, including gold, silver, copper, nickel, iron ore, lithium, coal, and phosphates.
